

incision

Welcome to a Brighter Future in Sterile Processing

Challenges You may be Facing in Your Department

Surveillance is Stressful

Admin for educators and managers is overwhelming.

Retention is Low

Onboarding programs can be pressured and resource draining.

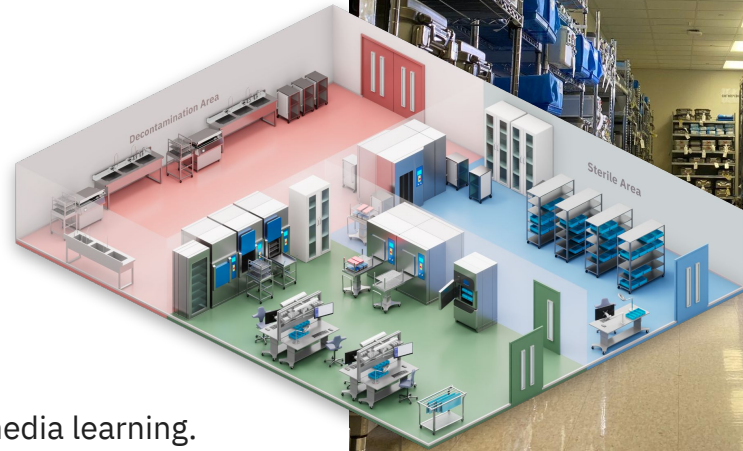

Morale is Suffering

Reprocessing is more complex than ever before.

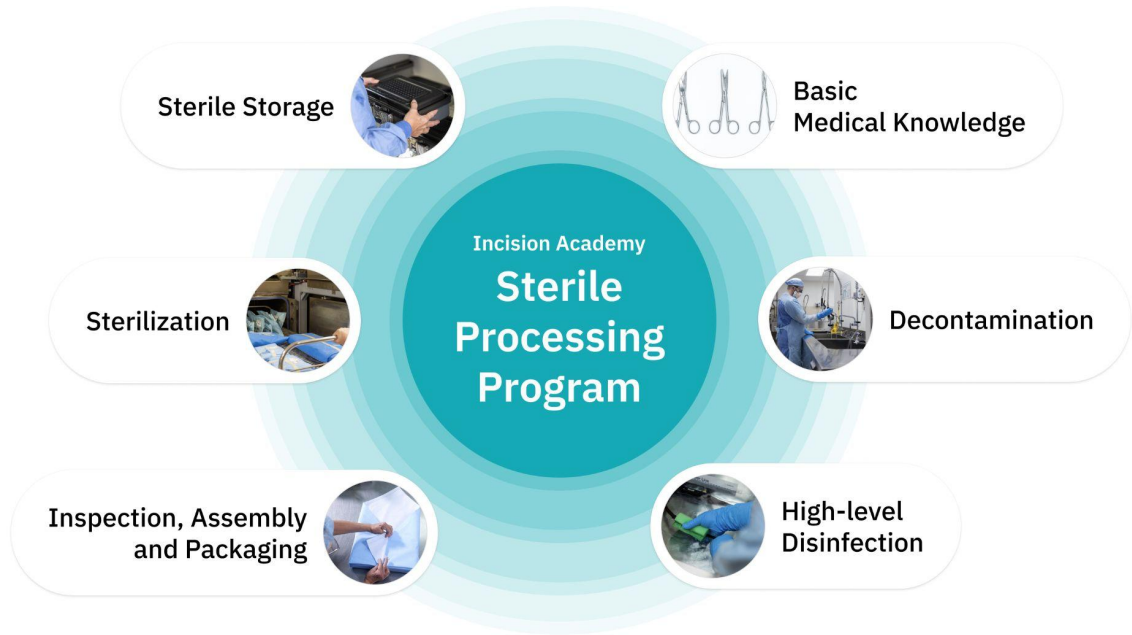

Certification and training needs are changing...

Proper Onboarding is a Key Instrument for Success

At Incision, we specialize in creating high-impact, high-quality onboarding programs that are tailored to transform the performance of a hospital, department and learner.

Get the most out of every minute with interactive multimedia learning. Designed to engage, educate and transform your team's experience.

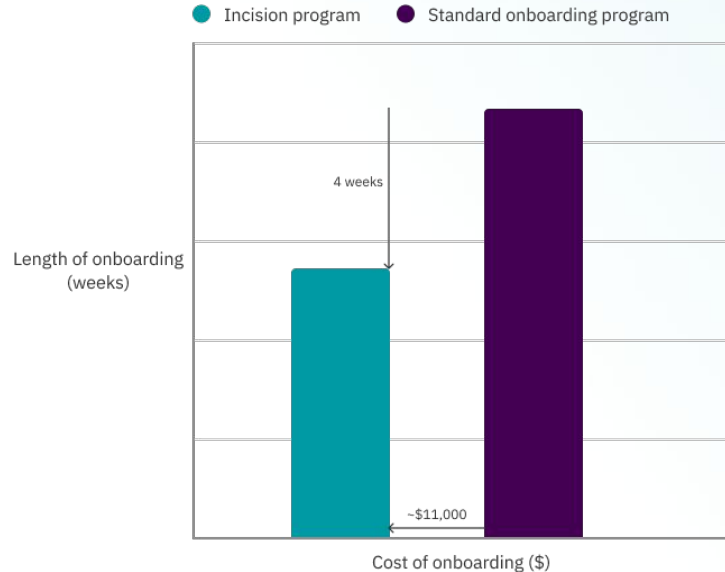

**21 Courses Covering 6 Major Themes
Delivered through
an Accredited Online Platform**

Primed to Deliver Powerful Results

Bolster your existing SPD onboarding with no infrastructure changes or disruptive integration. With everything in one place, new professionals have exactly what they need to get up to speed — fast.

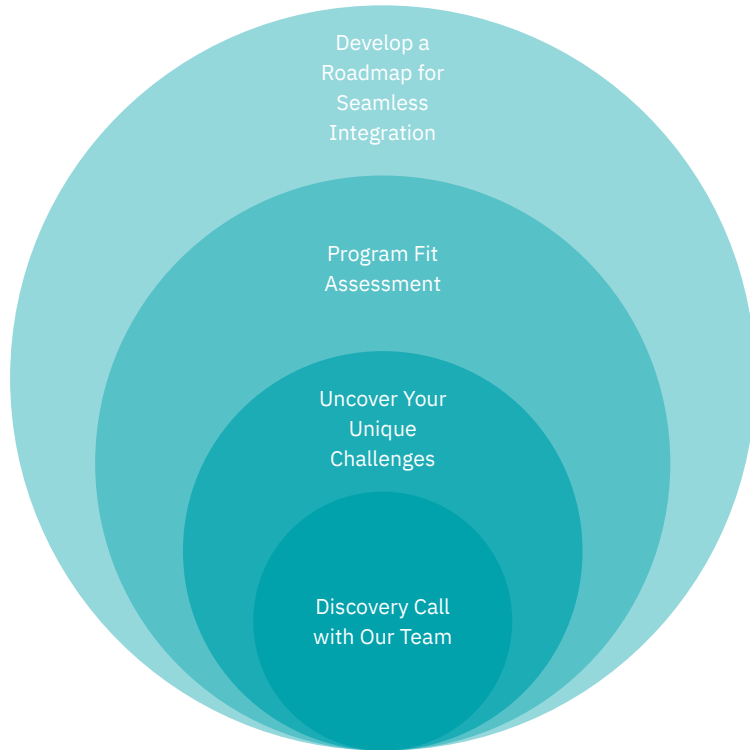

A strong onboarding program is proven to:

- Save money (direct and traveler costs)
- Save time (of senior staff, preceptors, educators, managers)
- Improve surveillance outcomes and federal funding
- Increase efficiency and meet departmental targets

For new staff, this means:

- Better long-term retention
- Professional development and continued education
- Improved job satisfaction
- Increased performance and productivity

Your SPD's Unique Path: We're Here to Walk it with You

While our comprehensive deck offers valuable insights into addressing pain points and the benefits of our program, reaching out to our sales team ensures a tailored approach to your department's unique needs. With one of our knowledgeable program experts as your partner, we can help you turn your future goals into tangible reality.

Together, let's shape a future where your success is our shared achievement!
